

Cairneagle Associates' Environmental Policy

Cairneagle Associates are committed to providing a quality service in a manner that ensures a safe and healthy workplace for our employees and minimises our impact on the environment. We will operate in compliance with all relevant environmental legislation and we will strive to use pollution prevention and environmental best practices in all we do. Our core commitments are:

Energy

Cairneagle will monitor and manage our energy usage. We will work to reduce the consumption of energy, employing energy saving devices where possible.

Paper

We will monitor and set targets to reduce our consumption of paper by only printing documents when necessary, and as a default printing on both sides and two pages per sheet.

Water

Cairneagle will work to reduce the consumption of water within our office.

Waste

Cairneagle will work to reduce the volume of waste within our office by, wherever possible, reducing consumption of and re-using all materials used within our office.

Transport

Cairneagle will monitor and work to reduce our contribution to environmental emissions from travel undertaken for business purposes and promote the increased use of telephone and video conferences.

Procurement

Cairneagle will purchase goods and services to minimise adverse environmental effects. The environmental policies and performances of our suppliers, particularly suppliers of energy, office supplies and transportation, will be key criteria in our procurement process.

Staff training

We will provide appropriate information and support to ensure that all staff recognise the responsibility they have in contributing to good environmental management.

Stakeholder engagement

We will promote environmental good practice to our business partners, encouraging a shared responsibility to protecting the environment.

Environmental Management

We have an environmental manager to monitor our carbon emissions and policies who is responsible for us reaching our environmental targets. The environmental manager reports to the Cairneagle Partners on a regular basis.
